- System Administration
- IT Operations
- Endpoint Management
- End-User Computing
- Endpoint Security
- Access Management
- Cloud Services
- IT Service Management
- Incident Management
- Vulnerability Management
- Service Delivery
- IT Automation
- Disaster Recovery
- Team Leadership

## TECHNOLOGIES

Microsoft Intune, Microsoft Endpoint Manager, Windows Autopilot, Microsoft Entra ID, Active Directory, Microsoft 365, Windows, PowerShell, Power Automate, ITSM Systems, Ticketing Systems, Endpoint Security Tools, Microsoft Workplace

## EXPERIENCE

### CEER MOTORS | RIYADH, KSA

Jul 2022 – Present

#### Assistant Manager, System Administration (Apr 2025 – Present)

- Lead System Administration, EUC, Microsoft Workplace, and endpoint operations across large-scale enterprise environments.
- Manage Microsoft Intune, Endpoint Manager, Windows Autopilot, and Entra ID for secure device lifecycle management.
- Oversee endpoint security, compliance, patching, software deployment, encryption, and access controls.
- Drive zero-touch deployment and standardized configurations to improve device onboarding and user experience.
- Lead technical teams, assign priorities, monitor performance, and ensure timely service delivery.
- Automate provisioning, compliance checks, reporting, and routine operations using PowerShell and Power Automate.
- Manage major incidents, root cause analysis, problem resolution, and service restoration within SLAs.
- Coordinate with Cybersecurity, Network, Cloud, Hosting, and OT teams to maintain reliable services.
- Establish endpoint standards, operating procedures, documentation, and ITIL-aligned governance controls.
- Monitor service availability, endpoint health, capacity, compliance, and operational KPIs.
- Support infrastructure upgrades, cloud adoption, business continuity, and disaster recovery initiatives.
- Manage vendors, RFP evaluations, licensing, procurement, and endpoint service performance.

#### Senior Specialist, System Administration (Sep 2023 – Mar 2025)

- Supported system administration, EUC, and endpoint services across the enterprise environment.
- Administered Microsoft Intune for device enrollment, compliance policies, configuration, and application deployment.
- Managed Windows provisioning, user onboarding, software installation, and endpoint lifecycle activities.
- Resolved complex incidents involving operating systems, authentication, connectivity, applications, and device performance.
- Supported Active Directory, Entra ID, Group Policy, Microsoft 365, and access management.
- Coordinated patching, vulnerability remediation, encryption, antivirus protection, and security compliance.
- Automated administrative and reporting tasks using PowerShell to improve efficiency and consistency.
- Maintained technical documentation, knowledge articles, asset records, and ITIL service records.

#### Service Desk Specialist (Jul 2022 – Sep 2023)

- Delivered first- and second-line IT support across CEER's growing enterprise environment.
- Managed incidents and service requests through ITIL processes while meeting defined SLAs.
- Supported Windows devices, Microsoft 365, printers, mobile devices, and collaboration tools.
- Performed device deployment, software installation, user onboarding, and hardware replacement.
- Managed basic Active Directory accounts, permissions, passwords, and group memberships.
- Troubleshooted technical issues, maintained records, and escalated complex incidents to specialized teams.

**PROVEN ARABIAN COMPANY FOR BUSINESS SUPPORT SERVICES | RIYADH, KSA** **Jul 2021 – Jul 2022**  
IT Support Specialist

- Delivered end-user support and maintained smooth daily IT operations across the organization.
- Resolved hardware, software, network, printer, and Microsoft 365 issues within defined SLAs.
- Configured laptops, desktops, user accounts, applications, and access permissions.
- Managed incidents, service requests, IT assets, and escalations using ITIL practices.

**MISK FOUNDATION | SEOUL, SOUTH KOREA** **Jul 2020 – Sep 2020**  
Software Developer Intern – Virtual Internship

- Developed and tested software solutions using programming, data analysis, and problem-solving skills.
- Supported requirement analysis, debugging, documentation, and project delivery in a virtual environment.

**MONSHA'AT | RIYADH, KSA** **Jun 2018 – Jul 2018**  
Software Developer Intern

- Supported software application development, testing, debugging, and maintenance activities.
- Gathered requirements and collaborated with technical teams to develop practical system solutions.
